**DECISION**

This is a decision on the petition filed on 14 December, 2005, averring non-receipt of an Office action and so considered as a request to withdraw the holding of abandonment under 37 C.F.R. §1.181.

For the reasons set forth below, the petition considered under 37 C.F.R. §1.181 is **DISMISSED**.

**NOTES:**

**Monitoring of the status of applications on PAIR can inform one's management of application responses and provide an indication when mailings of Office actions should be expected.**

**Status Inquiries filed at three (3) or four (4) month intervals provide a demonstration of diligence and attention in supporting a petition seeking relief under 37 C.F.R. §1.181.**

- (1) Any petition (and fee) for reconsideration of this decision must be submitted within two (2) months from the mail date of this decision. Extensions of time under 37 C.F.R. §1.136(a) are permitted. The reconsideration request should

include a cover letter entitled “Renewed Petition under 37 C.F.R. §1.181.”

(If Petitioner is unable to present even a satisfactory showing to support a petition under 37 C.F.R. §1.137(a), and Petitioner’s only alternative will be to file a petition under 37 C.F.R. §1.137(b).)

- (2) Thereafter, there will be no further reconsideration of this matter.<sup>1</sup>

### BACKGROUND

The record reflects that:

- Applicant failed to reply timely and properly to the non-final Office action—copy enclosed—mailed on 4 April, 2005, with reply due absent and extension of time on or before Tuesday, 5 July, 2005;
- the instant application went abandoned by operation of law after midnight 4 July, 2005;
- it does not appear that the Office mailed a Notice of Abandonment before the instant petition was filed;
- on 14 December, 2005, Petitioner filed the instant petition, averring non-receipt of the Office action in question and alleges that Office records reflect that the Office action in question could not have been received because it was returned to the Office by the US Postal Service (USPS) as undelivered.

Although the application went abandoned by operation of law after midnight 4 July, 2005, no action was taken by anyone herein to seek relief under 37 C.F.R. §1.181 until more than five (5) months after abandonment.

Petitioner avers and acknowledges that he was not the Counsel of record at the time the application went abandoned, and—in fact—he did not file of record a Revocation/Power of Attorney empowering him executed on 11 May, 2005, until 27 May, 2005.

---

<sup>1</sup> For more than a century, punctuality and due diligence, equally with good faith, have been deemed essential requisites to the success of those who seek to obtain the special privileges of the patent law, and they are demanded in the interest of the public and for the protection of rival inventors. See: Porter v. Loudon, 7 App.D.C. 64 (C.A.D.C. 1895), citing Wollensak v. Sargent, 151 U.S. 221, 228, 38 L. Ed. 137, 14 S. Ct. 291 (1894). An invention benefits no one unless it is made public, and the rule of diligence should be so applied as to encourage reasonable promptness in conferring this benefit upon the public. Automatic Electric Co. v. Dyson, 52 App. D.C. 82; 281 F. 586 (C.A.D.C. 1922). Generally, 35 U.S.C. §6; 37 C.F.R. §§1.181, 182, 183.

Moreover, what is clear from the record is that the Office action in question was mailed to the address of record—to wit: that of former Counsel at Parkhurst & Wendell LLP, Ste. 210, 1421 Prince Street, Alexandria, Virginia 2231402805—on 4 April, 2005, and found by USPS to be undeliverable at the Parkhurst & Wendell LLP forwarding address (P.O. Box 20249, Alexandria, Virginia 22320-1249) on or about 10 April, 2005.

Thus, what is clear is that Applicant's former Counsel changed address without advance Notice to the Office as is required, and that burden falls to the Applicants and their now-Counsel, the Petitioner herein.

Moreover, either Petitioner was unaware of the state of affairs in the instant matter because he did not review the record herein at the time he became of record (27 May, 2005), or he was aware of the state of affairs at that time and did not act to seek relief at that time until months later.

Clearly the burden is not that of the Office.

Petitioner, as one registered to practice before the Office is well aware of this reality and, thus, that the submission of a request to withdraw the holding of abandonment is not appropriate herein.

Petitioner is referred to the guidance in the Commentary at MPEP §403.<sup>2</sup>

---

<sup>2</sup> The commentary at MPEP §403 provides, in pertinent part:

**403 Correspondence — With Whom Held [R-3]**

*37 CFR 1.33. Correspondence respecting patent applications, reexamination proceedings, and other proceedings.*

\*\*\*

37 CFR 1.33(a) provides for an applicant to supply an address to receive correspondence from the U.S. Patent and Trademark Office so that the Office may direct mail to any address of applicant's selection, such as a corporate patent department, a firm of attorneys or agents, or an individual attorney, agent, or other person.

37 CFR 1.33(a) provides that in a patent application the applicant must specify a correspondence address to which the Office will send notices, letters and other communications relating to the application. The correspondence address must appear either in an application data sheet (37 CFR 1.76) or in a clearly identifiable manner elsewhere in any papers submitted with an application filing. Where more than one correspondence address is specified, the Office will determine which one to establish as the correspondence address. This is intended to cover, for example, the situation where an application is submitted with multiple addresses, such as one correspondence address being given in the application transmittal letter, and a different one in an accompanying 37 CFR 1.63 oath or declaration, or other similar situations. The determination of which of the correspondence addresses to use will be made on a case-by-case basis, considering such factors as the earliest correspondence address submitted, and the first listed correspondence address if conflicting addresses appear in the same declaration. If more than one correspondence address is specified in a single document, the Office will use the address associated with a Customer Number over a typed correspondence address.

37 CFR 1.33(a) requests the submission of a daytime telephone number of the party to whom correspondence is to be addressed. While business is to be conducted on the written record (37 CFR 1.2), a daytime telephone number would be useful in initiating contact that could later be reduced to writing. The telephone number would be changeable by any party who could change the correspondence address.

37 CFR 1.33(a)(1) provides that any party filing the application and setting forth a correspondence address could later change the correspondence address provided that a 37 CFR 1.63 oath/declaration by any of the inventors has not been submitted. If one joint inventor filed an application, the person who may change the correspondence address would include only the one inventor who filed the application, even if another inventor was identified on the application transmittal letter. If two of three inventors filed the application, the two inventors filing the application would be needed to change the correspondence address. Additionally, any registered practitioner named in the application transmittal

letter, or a person who has the authority to act on behalf of the party that will be the assignee (if the application was filed by the party that will be the assignee), could change the correspondence address. A registered practitioner named in a letterhead would not be sufficient, but rather a clear identification of the individual as being a representative would be required. A company (to whom the invention has been assigned, or to whom there is an obligation to assign the invention) who files an application, is permitted to designate the correspondence address, and to change the correspondence address, until such time as a (first) 37 CFR 1.63 oath/declaration is filed. The mere filing of a 37 CFR 1.63 oath/ declaration that does not include a correspondence address does not affect any correspondence address previously established on the filing of the application, or changed per 37 CFR 1.63(a)(1), even if the application was filed by a company that is only a partial assignee. The expression "party that will be the assignee," rather than assignee, is used in that until a declaration is submitted, inventors have only been identified, and any attempted assignment, or partial assignment, cannot operate for Office purposes until the declaration is supplied. Hence, if the application transmittal letter indicates that the application is being filed on behalf of XYZ company, with an assignment to be filed later, XYZ company would be allowed to change the correspondence address without resort to 37 CFR 3.73(b) until an executed oath or declaration is filed, and with resort to 37 CFR 3.73(b) after the oath or declaration is filed.

Where a correspondence address was set forth or changed pursuant to 37 CFR 1.33(a)(1) (prior to the filing of a 37 CFR 1.63 oath or declaration), that correspondence address remains in effect upon filing of a 37 CFR 1.63 declaration and can then only be changed pursuant to 37 CFR 1.33(a)(2).

37 CFR 1.33 states that when an attorney >or agent< has been duly appointed to prosecute an application>,< correspondence will be held with the attorney >or agent< unless some other correspondence address has been given. >If an attorney or agent of record assigns a correspondence address which is different than an address where the attorney or agent normally receives mail, the attorney or agent is reminded that 37 CFR 10.57 requires the attorney or agent to keep information obtained by attorney/agent – client relationship in confidence.< Double correspondence with an applicant and his or her attorney, or with two representatives, will not be undertaken. See MPEP § 403.01, § 403.02, and § 714.01(d). If double correspondence is attempted, form paragraph 4.01 should be included in the next Office action.

\*\*\*

#### I. < CUSTOMER NUMBER PRACTICE

A Customer Number (previously a "Payor Number") may be used to:

- (A) designate the correspondence address of a patent application \*\*>or patent< such that the correspondence address for the patent application >or patent< would be the address associated with the Customer Number >(37 CFR 1.32(a)(4)(i))<;
- (B) designate the fee address (37 CFR 1.363) of a patent \*\* such that the fee address for the patent would be the address associated with the Customer Number >(37 CFR 1.32(a)(4)(ii))<; and
- (C) submit a list of practitioners \*\* such that \*\* those practitioners associated with the Customer Number >would have power of attorney (37 CFR 1.32(a)(4)(iii))<.

Thus, a Customer Number may be used to designate the address associated with the Customer Number as the correspondence address of an application (or patent) or the fee address of a patent, and may also be used to submit a power of attorney in the application (or patent) to the registered practitioners associated with the Customer Number.

Applicant may use either the same or different customer number(s) for the correspondence address, the fee address and/or a list of practitioners. The customer number associated with the correspondence address is the Customer Number used to obtain access to the Patent Application Information Retrieval (PAIR) system at <http://pair.uspto.gov>. See MPEP § 1730 for additional information regarding PAIR.

\*\*\*

The Office will also accept requests submitted electronically via a computer-readable diskette to \*\*change the correspondence address of a list of applications or patents or the fee address for a list of patents to the address associated with a Customer Number\*\*>.<

Such electronic requests must be submitted in the manner set forth in the Notice entitled "Extension of the Payor Number Practice (through "Customer Numbers") to Matters Involving Pending Patent Applications," published in the *Federal Register* at 61 FR 54622, 54623-24 (October 21, 1996), and in the *Official Gazette* at 1191 O. G. 187, 188-89 (October 29, 1996). >Note that such electronic requests are no longer accepted to change the power of attorney in a patent application or patent. See the notice entitled "Notice of Elimination of Batch Update Practice to Change Power of Attorney," published in the *Official Gazette* at 1272 O.G. 24 (July 1, 2003).<

\*\*>With Customer Number practice, a< patentee \*\*>is also< able to designate a "fee address" for the receipt of maintenance fee correspondence, and a different address for the receipt of all other correspondence. The designation of a "fee address" by reference to a Customer Number will not affect or be affected by the designation of a correspondence address by reference to another Customer Number, in that the Office will send maintenance fee correspondence to the address associated with the Customer Number designated as the "fee address" and will send all other correspondence to the address associated with the Customer Number designated as the correspondence address.

The association of a list of practitioners with a Customer Number will permit an applicant to appoint all of the practitioners associated with the Customer Number merely by reference to the Customer Number in the Power of Attorney (i.e., without individually listing the practitioners in the Power of Attorney). The addition and/or deletion of a practitioner from the list of practitioners associated with a Customer Number >by submitting a corresponding "Request for Customer Number Data Change" (PTO/SB/124)< will result in the addition or deletion of such practitioner from the list of persons authorized to represent any applicant >or assignee of the entire interest of the applicant< who appointed all of the practitioners associated with such Customer Number. This will avoid the necessity for the filing of additional papers in each patent application affected by a change in the practitioners of the law firm prosecuting the application. The appointment of practitioners associated with a Customer Number \*>is< optional, in that any applicant may continue to individually name those practitioners to represent the applicant in a

Petitioner also is directed to the guidance in the Commentary at MPEP §603.<sup>3</sup>

patent application>, so long as fewer than ten patent practitioners are named. See 37 CFR 1.32(c)(3)<.

The Customer Number practice does not affect the prohibition against, and does not amount to, an appointment of a law firm (rather than specified practitioners). The Office prohibits an appointment of a specified law firm because the Office cannot ascertain from its records whether a particular practitioner submitting a paper to the Office is associated with the law firm specified in an appointment. The Office will permit an appointment of all of the practitioners associated with a specified Customer Number because the Office can ascertain from its records for the specified Customer Number whether a particular practitioner is associated with that Customer Number.

As the Office will not recognize more than one correspondence address (37 CFR 1.33(a)), any inconsistencies between the correspondence address resulting from a Customer Number being provided in an application for the correspondence address and any other correspondence address provided in that application would be resolved in favor of the address of the Customer Number. Due to the prohibition against dual correspondence in an application (37 CFR 1.33(a)), an applicant will be permitted to provide only a single number at a time as the Customer Number for the correspondence address.

Where an applicant appoints all of the practitioners associated with a Customer Number as well as a list of individually named practitioners, such action would be treated as only an appointment of all of the practitioners associated with a Customer Number due to the potential for confusion and data entry errors in entering registration numbers from plural sources. >Furthermore, Office computer systems do not allow for entry of both a power of attorney to a list of practitioners associated with a Customer Number and a list of practitioners.< Although Customer Numbers are designed to designate both a correspondence address and to associate one or more patent attorneys or agents with an application, one Customer Number may be used for the correspondence address, and another Customer Number may be used for the power of attorney.

Applicants are strongly cautioned not to attempt to appoint more than one Customer Number for a particular purpose (e.g., correspondence address) in a single communication, as such action will not have a cumulative effect.

The Office has created a \*>Mail Stop< designation for correspondence related to a Customer Number ("\*\*\*>Mail Stop EBC<"), and all correspondence related to a Customer Number (e.g., requests for a Customer Number) should be addressed to this \*>mail stop< designation. The following persons are authorized to change the information associated with an established Customer Number: (1) a registered practitioner associated with the Customer Number; and (2) the person who requested the Customer Number (signed the Request for Customer Number, Form PTO/SB/125).

\*\*\*

<sup>3</sup> The commentary at MPEP§603 provides in pertinent part:

**601.03 Change of Correspondence Address [R-3]**

**37 CFR 1.33. Correspondence respecting patent applications, reexamination proceedings, and other proceedings.**

**\*\*>**

**(a) Correspondence address and daytime telephone number.**

When filing an application, a correspondence address must be set forth in either an application data sheet (§ 1.76), or elsewhere, in a clearly identifiable manner, in any paper submitted with an application filing. If no correspondence address is specified, the Office may treat the mailing address of the first named inventor (if provided, see §§ 1.76(b)(1) and 1.63(c)(2)) as the correspondence address. The Office will direct all notices, official letters, and other communications relating to the application to the correspondence address. The Office will not engage in double correspondence with an applicant and a registered patent attorney or patent agent, or with more than one registered patent attorney or patent agent except as deemed necessary by the Director. If more than one correspondence address is specified in a single document, the Office will establish one as the correspondence address and will use the address associated with a Customer Number, if given, over a typed correspondence address. For the party to whom correspondence is to be addressed, a daytime telephone number should be supplied in a clearly identifiable manner and may be changed by any party who may change the correspondence address. The correspondence address may be changed as follows:<

(1) *Prior to filing of § 1.63 oath or declaration by any of the inventors.* If a § 1.63 oath or declaration has not been filed by any of the inventors, the correspondence address may be changed by the party who filed the application. If the application was filed by a registered attorney or agent, any other registered practitioner named in the transmittal papers may also change the correspondence address. Thus, the inventor(s), any registered practitioner named in the transmittal papers accompanying the original application, or a party that will be the assignee who filed the application, may change the correspondence address in that application under this paragraph.

(2) *Where a § 1.63 oath or declaration has been filed by any of the inventors.* If a § 1.63 oath or declaration has been filed, or is filed concurrent with the filing of an application, by any of the inventors, the correspondence address may be changed by the parties set forth in paragraph (b) of this section, except for paragraph (b)(2).

\*\*\*\*\*

37 CFR 1.33(a) provides that the application must specify a correspondence address to which the Office will send notice, letters, and other communications relating to an application. The correspondence address must either be in an application data sheet (37 CFR 1.76) or in a clearly identifiable manner elsewhere in any papers submitted with the application filing. \*\*>If more than one correspondence address is specified in a single document, the Office will establish one as the correspondence address and will use the address associated with a Customer Number, if

---

given, over a typed correspondence address. Additionally, applicants will often specify the correspondence address in more than one paper that is filed with an application, and the address given in the different places sometimes conflicts. Where the applicant specifically directs the Office to use non-matching correspondence addresses in more than one paper, priority will be accorded to the correspondence address specified in the following order: (A) Application data sheet (ADS); (B) application transmittal; (C) oath or declaration (unless power of attorney is more current); and (D) power of attorney. Accordingly, if the ADS includes a typed correspondence address, and the declaration gives a different address (i.e., the address associated with a Customer Number) as the correspondence address, the Office will use the typed correspondence address as included on the ADS. In the experience of the Office, the ADS is the most recently created document and tends to have the most current address. After the correspondence address has been entered according to the above procedure, it will only be changed pursuant to 37 CFR 1.33(a)(1).<

The submission of a daytime telephone number of the party to whom correspondence is to be addressed is requested pursuant to 37 CFR 1.33(a). While business is to be conducted on the written record (37 CFR 1.2), a daytime telephone number would be useful in initiating contact that could later be reduced to \* writing. Any party who could change the correspondence address could also change the telephone number. 37 CFR 1.33(a)(1) provides that the party filing the application and setting forth a correspondence address may later change the correspondence address provided that an executed oath or declaration under 37 CFR 1.63 by any of the inventors has not been filed. If a registered attorney or agent filed the application, any other registered practitioners named in the transmittal letter may change the correspondence address. A registered practitioner named in a letterhead would not be considered as being named in the transmittal letter for purposes of changing the correspondence address. A clear identification of the individual as a representative would be required. If an application is filed by a company to whom the invention has been assigned or to whom there is an obligation to assign the invention, a person who has the authority to act on behalf of the company may change the correspondence address. Thus, the inventor(s), any registered practitioner named in the transmittal papers accompanying the original application, or a party that will be the assignee who filed the application, may change the correspondence address pursuant to 37 CFR 1.33(a)(1). The filing of an executed oath or declaration that does not include a correspondence address does not affect any correspondence address previously established on filing of the application, or changed pursuant to 37 CFR 1.33(a)(1).

Where a correspondence address has been established on filing of the application or changed pursuant to 37 CFR 1.33(a)(1) (prior to the filing of an executed oath or declaration under 37 CFR 1.63 by any of the inventors), that correspondence address remains in effect upon filing of an executed oath or declaration under 37 CFR 1.63 and can only be subsequently changed pursuant to 37 CFR 1.33(a)(2). Under 37 CFR 1.33(a)(2), where an executed oath or declaration under 37 CFR 1.63 has been filed by any of the inventors, the correspondence address may be changed by (A) a registered attorney or agent of record, (B) an assignee as provided for under 37 CFR 3.73(b), or (C) all of the applicants (37 CFR 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with 37 CFR 3.71. See 37 CFR 1.33(a)(2).

Where an attorney or agent of record (or applicant, if he or she is prosecuting the application *pro se*) changes his or her correspondence address, he or she is responsible for promptly notifying the U.S. Patent and Trademark Office of the new correspondence address (including ZIP Code). The notification should also include his or her telephone number. A change of correspondence address may not be signed by an attorney or agent not of record (see MPEP § 405).

Unless the correspondence address is designated as the address associated with a Customer Number, a separate notification must be filed in each application for which a person is intended to receive communications from the Office. See MPEP § 403 for Customer Number Practice. In those instances where a change in the correspondence address of a registered attorney or agent is necessary in a plurality of applications, the notification filed in each application may be a reproduction of a properly executed, original notification. The original notice may either be sent to the Office of Enrollment and Discipline as notification to the Attorney's Roster of the change of address, or may be retained by applicant. See MPEP § 502.02.

Special care should be taken in continuation or divisional applications to ensure that any change of correspondence address in a prior application is reflected in the continuation or divisional application. For example, where a copy of the oath or declaration from the prior application is submitted for a continuation or divisional application filed under 37 CFR 1.53(b) and the copy of the oath or declaration from the prior application designates an old correspondence address, the Office may not recognize, in the continuation or divisional application, the change of correspondence address made during the prosecution of the prior application. Applicant is required to identify the change of correspondence address in the continuation or divisional application to ensure that communications from the Office are mailed to the current correspondence address. 37 CFR 1.63(d)(4).

See MPEP § 711.03(c) for treatment of petitions to revive applications abandoned as a consequence of failure to timely receive an Office action addressed to the old correspondence address.

The required notification of change of correspondence address need take no particular form. However, it should be provided in a manner calling attention to the fact that a change of address is being made. Thus, the mere inclusion, in a paper being filed for another purpose, of an address which is different from the previously provided correspondence address, without mention of the fact that an address change is being made would not ordinarily be recognized or deemed as instructions to change the correspondence address on the file record.

The record is clear that the Office action in question was mailed to the address of record on that date, and the apparent combined failures of former Counsel to properly Notice the Office as to a change of address and/or present Counsel to more promptly obtain and submit a Revocation/Power of Attorney and review the record herein, again, is not a burden that falls to the Office.

Out of an abundance of caution, Petitioners always are reminded that:

- the filing of a petition under 37 C.F.R. §1.181 does not toll any periods that may be running any action by the Office and a petition seeking relief under the regulation must be filed within two (2) months of the act complained of (see: 37 C.F.R. §1.181(f)); and
- those registered to practice *and* all others who make representations before the Office are reminded to inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation—since all owe to the Office the continuing duty to disclose.<sup>4</sup>

---

The obligation (see 37 CFR \*11.11<) of a registered attorney or agent to notify the Attorney's Roster by letter of any change of his or her address for entry on the register is separate from the obligation to file a notice of change of address filed in individual applications. See MPEP § 402.

<sup>4</sup> See supplement of 17 June, 1999. The Patent and Trademark Office is relying on petitioner's duty of candor and good faith and accepting a statement made by Petitioner. See Changes to Patent Practice and Procedure, 62 Fed. Reg. at 53160 and 53178, 1203 Off. Gaz. Pat. Office at 88 and 103 (responses to comments 64 and 109)(applicant obligated under 37 C.F.R. §10.18 to inquire into the underlying facts and circumstances when providing statements to the Patent and Trademark Office).

Specifically, the regulations at 37 C.F.R. §10.18 provide:

**§ 10.18 Signature and certificate for correspondence filed in the Patent and Trademark Office.**

(a) For all documents filed in the Office in patent, trademark, and other non-patent matters, except for correspondence that is required to be signed by the applicant or party, each piece of correspondence filed by a practitioner in the Patent and Trademark Office must bear a signature by such practitioner complying with the provisions of §1.4(d), §1.4(e), or § 2.193(c)(1) of this chapter.

(b) By presenting to the Office (whether by signing, filing, submitting, or later advocating) any paper, the party presenting such paper, whether a practitioner or non-practitioner, is certifying that—

(1) All statements made therein of the party's own knowledge are true, all statements made therein on information and belief are believed to be true, and all statements made therein are made with the knowledge that whoever, in any matter within the jurisdiction of the Patent and Trademark Office, knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be subject to the penalties set forth under 18 U.S.C. 1001, and that violations of this paragraph may jeopardize the validity of the application or document, or the validity or enforceability of any patent, trademark registration, or certificate resulting therefrom; and

(2) To the best of the party's knowledge, information and belief, formed after an inquiry reasonable under the circumstances, that —

(i) The paper is not being presented for any improper purpose, such as to harass someone or to cause unnecessary delay or needless increase in the cost of prosecution before the Office;

(ii) The claims and other legal contentions therein are warranted by existing law or by a nonfrivolous argument for the extension, modification, or reversal of existing law or the establishment of new law;

(iii) The allegations and other factual contentions have evidentiary support or, if specifically so identified, are likely to have evidentiary support after a reasonable opportunity for further investigation or discovery; and

(iv) The denials of factual contentions are warranted on the evidence, or if specifically so identified, are reasonably based on a lack of information or belief.

(c) Violations of paragraph (b)(1) of this section by a practitioner or non-practitioner may jeopardize the validity of the application or document, or the validity or enforceability of any patent, trademark registration, or certificate resulting therefrom. Violations of any of paragraphs (b)(2)(i) through (iv) of this section are, after notice and reasonable opportunity to respond, subject to such sanctions as deemed appropriate by the

### STATUTES, REGULATIONS AND ANALYSIS

Congress has authorized the Commissioner to "revive an application if the delay is shown to the satisfaction of the Commissioner to have been "unavoidable." 35 U.S.C. §133 (1994).<sup>5</sup>

The regulations at 37 C.F.R. §1.137(a) and (b) set forth the requirements for a petitioner to revive a previously unavoidably or unintentionally, respectively, abandoned application under this congressional grant of authority. The language of 35 U.S.C. §133 and 37 C.F.R. §1.137(a) is clear, unambiguous, and without qualification: the delay in tendering the reply to the outstanding Office action, as well as filing the first petition seeking revival, must have been unavoidable for the reply now to be accepted on petition.<sup>6</sup>

Delays in responding properly raise the question whether delays are unavoidable.<sup>7</sup> Where there is a question whether the delay was unavoidable, Petitioners must meet the burden of establishing that the delay was unavoidable within the meaning of 35 U.S.C. §133 and 37 C.F.R. §1.137(a).<sup>8</sup> And the Petitioner must be diligent in attending to the matter.<sup>9</sup> Failure to do so does not constitute the care required under Pratt, and so cannot satisfy the test for diligence and due care.

(By contrast, unintentional delays are those that do not satisfy the very strict statutory and

---

Commissioner, or the Commissioner's designee, which may include, but are not limited to, any combination of —

- (1) Holding certain facts to have been established;
- (2) Returning papers;
- (3) Precluding a party from filing a paper, or presenting or contesting an issue;
- (4) Imposing a monetary sanction;
- (5) Requiring a terminal disclaimer for the period of the delay; or
- (6) Terminating the proceedings in the Patent and Trademark Office.

(d) Any practitioner violating the provisions of this section may also be subject to disciplinary action. See § 10.23(c)(15).

[Added 50 FR 5175, Feb. 6, 1985, effective Mar. 8, 1985; para. (a) revised, 58 FR 54494, Oct. 22, 1993, effective Nov. 22, 1993; paras. (a) & (b) revised, paras. (c) & (d) added, 62 FR 53131, Oct. 10, 1997, effective Dec. 1, 1997; para. (a) revised, 69 FR 56481, Sept. 21, 2004, effective Oct. 21, 2004]

<sup>5</sup> 35 U.S.C. §133 provides:

**35 U.S.C. §133 Time for prosecuting application.**

Upon failure of the applicant to prosecute the application within six months after any action therein, of which notice has been given or mailed to the applicant, or within such shorter time, not less than thirty days, as fixed by the Commissioner in such action, the application shall be regarded as abandoned by the parties thereto, unless it be shown to the satisfaction of the Commissioner that such delay was unavoidable.

<sup>6</sup> Therefore, by example, an unavoidable delay in the payment of the Filing Fee might occur if a reply is shipped by the US Postal Service, but due to catastrophic accident, the delivery is not made.

<sup>7</sup> See: *Changes to Patent Practice and Procedure, Final Rule Notice*, 62 *Fed. Reg.* at 53158-59 (October 10, 1997), 1203 *Off. Gaz. Pat. Office* at 86-87 (October 21, 1997).

<sup>8</sup> See: In re Application of G, 11 USPQ2d 1378, 1380 (Comm'r Pats. 1989).

<sup>9</sup> See: Diligence in Filing Petitions to Revive and Petitions to Withdraw the Holding of Abandonment, 1124 *Off. Gaz. Pat. Office* 33 (March 19, 1991). It was and is Petitioner's burden to exercise diligence in seeking either to have the holding of abandonment withdrawn or the application revived. See 1124 *Off. Gaz. Pat. Office supra*.

regulatory requirements of unavoidable delay, and also, by definition, are not intentional.<sup>10))</sup>

Allegations as to the Request to  
Withdraw the Holding of Abandonment

The courts have determined the construct for properly supporting a petition seeking withdrawal of a holding of abandonment.<sup>11</sup>

Further, the commentary at MPEP §711.03(c) provides:

\* \* \*

**A. Petition To Withdraw Holding of Abandonment Based on Failure To  
Receive Office Action**

In *Delgar v. Schulyer*, 172 USPQ 513 (D.D.C. 1971), the court decided that the Office should mail a new Notice of Allowance in view of the evidence presented in support of the contention that the applicant's representative did not receive the original Notice of Allowance. Under the reasoning of *Delgar*, an allegation that an Office action was never received may be considered in a petition to withdraw the holding of abandonment. If adequately supported, the Office may grant the petition to withdraw the holding of abandonment and remail the Office action. That is, the reasoning of *Delgar* is applicable regardless of whether an application is held abandoned for failure to timely pay the issue fee ( 35 U.S.C. 151) or for failure to prosecute ( 35 U.S.C. 133). To minimize costs and burdens to practitioners and the Office, the Office has modified the showing required to establish nonreceipt of an Office action. The showing required to establish nonreceipt of an Office communication must include a statement from the practitioner stating that the Office communication was not received by the practitioner and attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received. A copy of the docket record where the nonreceived Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement. For example, if a three month period for reply was set in the nonreceived Office action, a copy of the docket report showing all replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted as documentary proof of nonreceipt of the Office action.

---

<sup>10</sup> Therefore, by example, an unintentional delay in the reply might occur if the reply and transmittal form are to be prepared for shipment by the US Postal Service, but other pressing matters distract one's attention and the mail is not timely deposited for shipment.

<sup>11</sup> See: *Delgar v. Schulyer*, 172 USPQ 513 (D.D.C. 1971).

\* \* \*

The showing outlined above may not be sufficient if there are circumstances that point to a conclusion that the Office action may have been lost after receipt rather than a conclusion that the Office action was lost in the mail (e.g., if the practitioner has a history of not receiving Office actions).

Evidence of nonreceipt of an Office communication or action (e.g., Notice of Abandonment or an advisory action) other than that action to which reply was required to avoid abandonment would not warrant withdrawal of the holding of abandonment. Abandonment takes place by operation of law for failure to reply to an Office action or timely pay the issue fee, not by operation of the mailing of a Notice of Abandonment. See *Lorenz v. Finkl*, 333 F.2d 885, 889-90, 142 USPQ 26, 29-30 (CCPA 1964); *Krahn v. Commissioner*, 15 USPQ2d 1823, 1824 (E.D. Va 1990); *In re Application of Fischer*, 6 USPQ2d 1573, 1574 (Comm'r Pat. 1988). (Emphasis supplied.)

\* \* \*

And the regulation (37 C.F.R. §1.181<sup>12</sup>) requires that relief be sought within two (2) months of the act complained of.

---

<sup>12</sup> The regulations at 37 C.F.R. §1.181 provide:  
**§ 1.181 Petition to the Director.**

(a) Petition may be taken to the Director:

(1) From any action or requirement of any examiner in the *ex parte* prosecution of an application, or in *ex parte* or *inter partes* prosecution of a reexamination proceeding which is not subject to appeal to the Board of Patent Appeals and Interferences or to the court;

(2) In cases in which a statute or the rules specify that the matter is to be determined directly by or reviewed by the Director; and

(3) To invoke the supervisory authority of the Director in appropriate circumstances. For petitions involving action of the Board of Patent Appeals and Interferences, see § 41.3 of this title.

(b) Any such petition must contain a statement of the facts involved and the point or points to be reviewed and the action requested. Briefs or memoranda, if any, in support thereof should accompany or be embodied in the petition; and where facts are to be proven, the proof in the form of affidavits or declarations (and exhibits, if any) must accompany the petition.

(c) When a petition is taken from an action or requirement of an examiner in the *ex parte* prosecution of an application, or in the *ex parte* or *inter partes* prosecution of a reexamination proceeding, it may be required that there have been a proper request for reconsideration (§ 1.111) and a repeated action by the examiner. The examiner may be directed by the Director to furnish a written statement, within a specified time, setting forth the reasons for his or her decision upon the matters averred in the petition, supplying a copy to the petitioner.

(d) Where a fee is required for a petition to the Director the appropriate section of this part will so indicate. If any required fee does not accompany the petition, the petition will be dismissed.

(e) Oral hearing will not be granted except when considered necessary by the Director.

(f) The mere filing of a petition will not stay any period for reply that may be running against the application, nor act as a stay of other proceedings. Any petition under this part not filed within two months of the mailing date of the action or notice from which relief is requested may be dismissed as untimely, except as otherwise provided. This two-month period is not extendable.

(g) The Director may delegate to appropriate Patent and Trademark Office officials the determination of petitions.

[24 FR 10332, Dec. 22, 1959; 34 FR 18857, Nov. 26, 1969; paras. (d) and (g), 47 FR 41278, Sept. 17, 1982, effective Oct. 1, 1982; para. (a), 49 FR 48416, Dec. 12, 1984, effective Feb. 11, 1985; para. (f) revised, 65 FR 54604, Sept. 8, 2000, effective Nov. 7, 2000; paras. (a) and (c) revised, 65 FR 76756, Dec. 7, 2000, effective Feb. 5, 2001; paras. (a), (a)(2)-(3), (c)-(e) & (g) revised, 68 FR 14332, Mar. 25, 2003, effective May 1, 2003; para. (a)(3) revised, 69 FR 49959, Aug. 12, 2004, effective Sept. 13, 2004]

Thus, as of this writing Petitioner appears not to have satisfied and not to be able to satisfy the “showing” and “timeliness” requirement described above.

### CONCLUSION

Because it appears that Petitioner has not satisfied the burdens set forth in Delgar v. Schulyer, the petition as considered under 37 C.F.R. §1.181 hereby is **dismissed**.

### ALTERNATIVE VENUE

Petitioner’s only alternative to irretrievable abandonment may be petition alleging unintentional delay under 37 C.F.R. §1.137(b).<sup>13</sup>

Petitioner may wish to file such a petition to the Commissioner requesting revival of an application abandoned due to unintentional delay. (See:  
[http://www.uspto.gov/web/offices/pac/mpep/documents/0700\\_711\\_03\\_c.htm#sect711.03c](http://www.uspto.gov/web/offices/pac/mpep/documents/0700_711_03_c.htm#sect711.03c) )

A petition to revive on the grounds of unintentional delay must be filed promptly and such petition must be accompanied by the reply, the petition fee, and a statement that “the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unintentional.” (The statement is in the form available online.)

Further correspondence with respect to this matter should be addressed as follows:<sup>14</sup>

By mail:        Commissioner for Patents<sup>15</sup>  
                  P.O. Box 1450  
                  Alexandria, VA 22313-1450

By FAX:        IFW Formal Filings  
                  (571) 273-8300  
                  ATTN.: Office of Petitions

---

<sup>13</sup> The regulations at 37 C.F.R. §1.183 sets forth that waiver of the rules is “subject to such other requirements as may be imposed.”

<sup>14</sup> On July 15, 2005, the Central Facsimile (FAX) Number changed to (571) 273-8300. The old FAX number no longer is in service and (571) 273-8300 will be the only facsimile number recognized for centralized delivery. (For further information. see: <http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/cfax062005.pdf>.)

<sup>15</sup> To determine the appropriate addresses for other subject-specific correspondence, refer to the USPTO Web site at [www.uspto.gov](http://www.uspto.gov).

Alexandria, VA 22314

While telephone inquiries regarding this decision may be directed to the undersigned at (571) 272-3214, it is noted that all practice before the Office is in writing (see: 37 C.F.R. §1.2<sup>16</sup>) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner's action(s).

  
John J. Gillon, Jr.  
Senior Attorney  
Office of Petitions

---

<sup>16</sup> The regulations at 37 C.F.R. §1.2 provide:  
**§1.2 Business to be transacted in writing.**

All business with the Patent and Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.
